In this area

100.0%

of households fall
into this segment

In the United States

0.5%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

On their own for the first time, Dorms to Diplomas residents are just learning about finance and cooking. Frozen dinners and fast food are common options. Shopping trips are sporadic, and preferences for products are still being established. Many carry a balance on their credit card so they can buy what they want now. Although school and part-time work take up many hours of the day, the remainder is usually filled with socializing and having fun with friends. They are looking to learn life lessons inside and outside of the classroom. This is the first online generation, having had lifelong use of computers, the Internet, cell phones and MP3 players.

Our Neighborhood

- Mix of dorms, on-campus and off-campus housing cater to young renters. Off-campus householders are commonly students living alone or with roommates; average household size is 2.22. More than 80% of the housing are apartments; many older homes in town have been converted into multifamily living units. With limited parking on campus, many walk, bike, or car pool to class. Less than one in ten homes are owner occupied.

Socioeconomic Traits

- This is the youngest market with half of the population aged 20–24. Impulse buyers who experiment with different brands. Often purchase trendy clothes on a budget. Vehicles are just a means of transportation, economy and environmental impact are factors in purchases; used, imported subcompact cars are a popular choice. Socializing, having fun, and learning new things are valued. Always connected; their cell phone is never out of reach.

Market Profile

- Going to the movies, out to bars for drinks and maybe a game of billiards are common activities. With little experience cooking, fast food and frozen dinners are the “go-to” choices. Rely on Internet shopping to express appearance and fashion preferences; hair color and teeth whiteners are commonplace. Mobile devices provide access to all the latest music. Active on and off campus, residents participate in many sports and activities like Frisbee, bowling, weightlifting, jogging, and yoga. Use a computer for just about everything including news, entertainment, shopping, blogging, social media, TV, movies, and homework.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2021. Update Frequency: Annually.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
